OSTİM Technical University – BS in Software Engineering 2024 – Present

- GPA: 3.17 | Huawei Student Developers Community – Project & Software Lead | Debate Club – Founder

Skills

Frontend: React.js, Next.js, Angular, TailwindCSS, Bootstrap
Backend: Node.js, Express.js, Nest.js, .NET
Languages: JavaScript (intermediate), TypeScript (intermediate), Python (beginner)
Design & Tooling: Figma, Wireframing, Design Systems, Git, GitHub, Firebase, Supabase, Vercel AI SDK

Experience

Part-Time Jr. Full Stack Developer, Omedya Bilişim A.Ş. – Ankara May 2025 – Present

- Developed and maintained enterprise-scale web applications using Angular and .NET 10 as part of a cross-functional team.
- Researched, built, and deployed AI Agents and automation services enabling intelligent task execution, data processing, and seamless third-party API integration.
- Contributed to the development, maintenance, and customer support of clients' ERP and CRM systems.

Part-Time Jr. Full Stack Developer, ARC Foreign Trade – Ankara Feb 2025 – May 2025

- Designed and delivered corporate websites and custom CRM systems for clients, handling the full UI/UX and frontend-backend development lifecycle.
- Managed social media content and digital design to support clients' online presence.

Intern Full Stack Developer, Tarvina Software Technologies – Ankara Sept 2024 – Dec 2024

- Built and refined UI components and wireframes for multiple client-facing web applications using React and Node.js.
- Participated in daily stand-ups, strengthening team communication and Agile task management practices.

Projects

Poyraz UI – React Component Library ui.poyrazavsever.com

- Published an open-source npm package featuring 50+ accessible components (17 atoms, 28 molecules, 5 organisms) built on React 19, Tailwind CSS 4, and Radix UI primitives.
- Implemented a 40+ token semantic CSS variable system, built-in motion layer, dark mode, and a CLI setup wizard (npx poyraz-ui init); ships ESM + CJS with full TypeScript declarations.

OhHike CoachOS – AI Sports Operations Platform ohhike.com

- Built a Turborepo monorepo (Next.js, Supabase, Clerk, Gemini AI) delivering a coach dashboard, team session/wellness/nutrition tracking, AI Reports, and a Team Memory RAG module.
- Architected a SaaS-ready billing gate with Clerk entitlements and designed deployment pipelines with separate Dockerfiles for coach app and marketing web services via Dokploy.

Neta – Open-Source Freelance Management Portal takeneta.com

- Built a self-hostable freelancer OS with Next.js and Supabase, covering clients, projects, tasks, finance, daily logs, analytics, AI chat, and a client portal.
- Implemented role-based access control with Supabase RLS and an AI chat module via the Vercel AI SDK; shipped Poyraz UI as the component layer on TailwindCSS.
